On Monday evening, a day after the Charlie Kirk unofficial state funeral in Arizona, President Trump signed an executive order formalizing his earlier announcement designating Antifa a “domestic terrorist organization.”

This campaign involves coordinated efforts to obstruct enforcement of Federal laws through armed standoffs with law enforcement, organized riots, violent assaults on Immigration and Customs Enforcement and other law enforcement officers, and routine doxing of and other threats against political figures and activists.”

Thank you. What happens next will take much resolve. Antifa are already moving further underground after one CA cell was exposed. State Department needs to designate international Antifa as FTO—and use DOJ RICO & conspiracy charges against domestic cells.

In a new report on The Post Millennial, I exclusively reveal that the intelligence community is working to put together evidence of terrorism among foreign Antifa networks. The DNI has the authority to formally recommend to the State Department that Antifa also be declared a Foreign Terrorist Organization, or FTO. Targeting the international element of Antifa will help weaken their domestic criminal organizing and funding.
